CONCURRENT DIABETIC RETINOPATHY SCREENING (DRS) WORKSHOP

(OSJ and Vision 2020 LINKS collaboration)

This workshop is intended for technicians, diabetic staff, ophthalmic staff, nurses, medical staff interested in learning more about the practical aspect of Diabetic Retinopathy Screening, mainly fundus photography – how to take the best photograph so that it can be read and images properly interpreted. This is an essential course for anyone interested in being part of a DRS programme. This course is also for personnel presently involved in a DRS programme as it will give you the pearls in taking great images.

Chair: Ms Marcia Zondervan, Programme Manager Vision 2020 LINKS programme

Attendees would be part of the OSJ programme (8:30-5pm)
